## WORK EXPERIENCE

### Software Development Engineer GivelIndia Pvt Ltd. 📄

02/2019 – 02/2020

Bangalore, India

#### Achievements/Tasks

- Worked primarily as a React developer. Developed re-usable independent components, handled all the behavior and interactivity of the components and updated DOM in the Declarative way using state. Consumed and rendered lots of APIs using axios.
- Took full responsibility when it comes to look and feel of the platform. Adhered to the mobile-first web designing. Designed responsive layouts for the site to work across all the major web browsers. Made use of modern flexbox, CSS3, bootstrap-4, reactstrap, styled-jsx and media queries.

### Software Engineer

#### Photon Infotech Private Limited 📄

08/2018 – 02/2019

Bangalore, India

#### Achievements/Tasks

- Offered my services in Javascript (ES6, ES7) and also in ReactJs. Be it fetching and posting data from and to web APIs to perform Asynchronous tasks or component level handing of react-forms and their event handlings.

### Software Developer Trainee

#### IBM India Pvt Ltd 📄

11/2016 – 10/2017

Bangalore, India

#### Achievements/Tasks

- Worked primarily as HTML5 developer
- Converted wire-frames to a beautiful responsive web pages using HTML5, CSS3, Javascript and jQuery.

## PERSONAL PROJECTS

### IFC Kashmir Flood Alert (03/2015 – 10/2015) 📄

- In September 2014, the Kashmir region suffered disastrous floods across many of its districts caused by torrential rainfall. My college peers (four of us) decided to develop this IFC Kashmir Flood Alert Android App for the humanly cause. I worked on HTML5 and Core PHP form in the backend.

### Weather App in ES8 📄

- User submits location in the form field and the app returns the weather details of the location
