WORK EXPERIENCE

Software Development Engineer GivelIndia Pvt Ltd.

02/2019 – 02/2020 *Bangalore, India*

Achievements/Tasks

- Worked primarily as a React developer. Developed re-usable independent components, handled all the behavior and interactivity of the components and updated DOM in the Declarative way using state. Consumed and rendered lots of APIs using axios.
- Took full responsibility when it comes to look and feel of the platform. Adhered to the mobile-first web designing. Designed responsive layouts for the site to work across all the major web browsers. Made use of modern flexbox, CSS3, bootstrap-4, reactstrap, styled-jsx and media queries.

Software Engineer Photon Infotech Private Limited

08/2018 – 02/2019 *Bangalore, India*

Achievements/Tasks

- Offered my services in Javascript (ES6, ES7) and also in ReactJs. Be it fetching and posting data from and to web APIs to perform Asynchronous tasks or component level handling of react-forms and their event handlings.

Software Developer Trainee IBM India Pvt Ltd

11/2016 – 10/2017 *Bangalore, India*

Achievements/Tasks

- Worked primarily as HTML5 developer
- Converted wire-frames to a beautiful responsive web pages using HTML5, CSS3, Javascript and jQuery.

EDUCATION

BE Computer Science SSM College (Kashmir University)

09/2011 – 05/2016 *7.5*

SKILLS

HTML5, CSS3, Javascript, ES9, React, Next, Redux

Bootstrap-4, Reactstrap, Flexbox, Styled-Jsx, Saas,

Github, SVN, npm and nodejs (front end), webpack-4

PERSONAL PROJECTS

IFC Kashmir Flood Alert (03/2015 – 10/2015)

- In September 2014, the Kashmir region suffered disastrous floods across many of its districts caused by torrential rainfall. My college peers (four of us) decided to develop this IFC Kashmir Flood Alert Android App for the humanly cause. I worked on HTML5 and Core PHP form in the backend.

My Portfolio Web App

- Highlights my professional career so far.

Weather App in ES8

- User submits location in the form field and the app returns the weather details of the location
