PERSONAL PROJECTS

IFC Kashmir Flood Alert (03/2015 – 10/2015) [🔗](#)

- In September 2014, the Kashmir region suffered disastrous floods across many of its districts caused by torrential rainfall. My college peers (four of us) decided to develop this IFC Kashmir Flood Alert Android App for the humanly cause. I worked on HTML5 and Core PHP form in the backend.

Weather App in ES8 [🔗](#)

- User submits location in the form field and the app returns the weather details of the location
